Commodity Charges

Irvine Ranch Water District (IRWD) establishes a water budget for each customer. The rates billed are based on use as a percentage of budget. Water budgets are based on an assumed number of residents (and units, in the case of apartments), landscape square footage and actual daily weather and evapotranspiration (ET) data for each of three microclimates within the District. Customers may apply for budget variances for larger than normal landscaped areas, more people living in the home or special medical needs. Rates are based on usage per hundred cubic feet (ccf). The budget process is described in detail in Budgets and Variances on page 10 and residential customers can apply for a variance at <https://www.irwd.com/services/request-a-water-variance>.

Budgets and Variances

1. Base budgets for commodity charges

Monthly budget includes a fixed component for indoor usage and a variable component based on evapotranspiration (ET) rate for landscape irrigation.

Account Type	Base Budget Number of Residents	Landscape Area (LA)	Base Budget Indoor	Base Budget Outdoor ET x LA x PF	Total Budget
Residential Detached	4	1300 sq. ft (0.03 acres)	# Residents x 50 gpd (IU)	ET x LA x 0.75	(Indoor x # days in bill service period) + Outdoor
Residential Condo Attached/ Detached*	3	435 sq. ft (0.01 acres)	# Residents x 50 gpd (IU)	ET x LA x 0.75	(Indoor x # days in bill service period) + Outdoor
Apartments*	2	N/A	# Residents x 50 gpd (IU)		Indoor x # days in bill service period
Potable Irrigation		Site specific based on irrigated acreage	N/A	ET x LA x 0.75	Outdoor based on bill service period
Recycled Irrigation		Site specific based on irrigated acreage	N/A	ET x LA x 0.87	Outdoor based on bill service period
Commercial, Industrial, Institutional			Site specific, based on productivity, employees, water use efficiency practices etc.	Site specific, based on irrigation needs	Site specific, adjusted for # days in bill service period

*For master-metered apartments and condominiums, the base budget is multiplied by the number of dwelling units.

CCF = 100 cubic feet. 1 CCF = 1 billing unit = 748 gallons

ET = reference evapotranspiration – from IRWD weather stations located in coastal, central or foothill zones for cool season turf

GPD = gallons per day

IU = Internal Use – assumes 50 GPD per person

LA = irrigated landscape acres

PF = plant factor. Adjusts ET based on plant needs relative to cool season turf and irrigation system efficiency requirements. The plant factor for potable irrigation is 0.75. For recycled water, the plant factor is 0.87.

2. Budget variances

Variances are available for larger than normal landscaped areas, more people living in the home or special medical needs. Applications for variances may be obtained from the District website

<https://www.irwd.com/services/request-a-water-variance> or from Customer Service at (949) 453-5300. See IRWD Rules and Regulations, Section 12.6 for variance procedures.

3. Grounds for variance

Applicants must provide proof acceptable to the District to support any variance request.

a. Number of people residing in a residential dwelling unit

Each additional person increases the budget by 1.6 ccf/month which is IU x 0.8.

b. Landscape

Increased budgets shall be given for residential lot size beyond the standard base budget lot size. Applicants must provide acceptable documentation to the District of the actual irrigated landscape area served.

c. Medical needs

- Approval is contingent upon medical documentation.
- Increased budget will be determined on a case by case basis and based on the type of medical need.

d. Licensed care facilities (in a residential dwelling unit)

- A current license from appropriate regulatory agency will be required.
- A licensed 24-hour care facility will be provided budget increases based on the IU x 0.8 for each additional resident.
- A licensed day care facility (not 24-hour) will be provided budget increases based on the IU x 0.5 for each additional person.
- Additional budget for medical reasons will be determined on a case by case basis.

e. Fire control zones

- Adjustments to budgets will be determined by the District based upon relevant factors such as area, slope, planting material, etc.

f. Commercial/industrial/public authority

- Adjustments to the base budget will be determined on a case by case basis. Relevant factors will include expansion of productive capacity, existing conservation practices that can be shown to have reduced water usage, severe economic hardship, etc.

g. New account establishment variance

- Landscape accounts – billed at the base rate for the first six months and, beginning in the seventh month, the budget will be based on irrigated acres.
- Commercial and industrial accounts – billed at the base rate on usage for the first six months and, beginning in the seventh month, the monthly budget will be based on unique business and site demands as determined by the District.

4. Limitations

- a. An approved variance will become effective on the date the request for variance is approved by the District but must be submitted within thirty (30) days of receipt of the bill.
- b. Approvals are valid for a period specified by the District (one year or less) and must be resubmitted on or before the expiration date to remain in effect.

5. Effect of increased budgets

a. Residential

Approved variances will extend each tier of the residential structure by a percentage.

b. Non-residential

Approved variances will extend each tier of the non-residential structure by a given percentage (or other method) determined on a case by case basis.

Pumping Surcharges

A pumping surcharge will be added to the variable water usage charge for customers in locations that cause the Distric to incur additional pumping costs to supply their water. The surcharge is based upon prevailing energy costs and varies depending upon the cost to pump water to the area served.

1. Potable water pumping surcharges

Area Name	Surcharge/ccf
Area 1	\$0.38
Area 2	\$0.67
Area 3	\$0.90
Area 4	\$1.72

2. Recycled water pumping surcharges

Area Name	Surcharge/ccf
Area 1	\$0.23
Area 2	\$0.37
Area 3	\$0.53

Potable	\$3.08/ccf
Recycled	\$1.71/ccf

3. Meter deposit

A deposit equal to the replacement cost of the construction meter shall be collected at the time of service application. The deposit will be applied to the closing bill and any remaining amount refunded to the customer. Lost meters will result in forfeiture of deposit.

5. High-lines for redevelopment

A high-line is a temporary service connection installed by the District to an existing customer during system upgrades or repairs to the District's system. Whenever feasible, high-lines will be metered and the customers will be billed at their regular rate. The District will determine whether a high-line should be metered.

If a high-line is unmetered, the customer will be charged using a reasonable average daily consumption based on prior consumption or based on other reasonable calculations in the absence of historical data.

New Account Fees and Security Deposits for Water Service

This section is applicable to all requests for new or transferred service.

1. Service establishment fee

A fee of \$25.00 shall be collected to establish a new account for water and sewer service, or to transfer an existing account to a new location.

2. Residential service deposit

For residential customers, a deposit of \$50.00 may be required until a one year payment history is established.

3. Non-residential service deposit

For non-residential customers, a deposit of \$100.00 is required until a one year payment history is established.

Other Water System Charges

1. Delinquency charges

All bills and charges for water, sewer and recycled water service shall be due and payable upon presentation and shall become delinquent twenty-five (25) calendar days thereafter. If payment is not made within twenty-five (25) calendar days after presentation, a late charge will be levied upon the unpaid balance as follows:

For residential and non-residential accounts with an unpaid balance of \$10 or more, a one-time charge of 10% of the unpaid balance plus 1.5% interest will be assessed, and each month thereafter the unpaid balance will be subject to an interest charge of 1.5%.

2. Non-sufficient funds checks

A \$20.00 service fee will be charged for each check returned from the bank for non-sufficient funds.

3. Service restoration charges

When service is discontinued because of delinquency in payment of a water, sewer, or recycled water bill, the service shall not be restored until all delinquent charges, late charges and interest charges, and a trip charge as specified below, have been paid.

a. Trip charge during normal working hours

The trip charge applicable for work requested to be performed during normal working hours of the District will be \$75.00. Certain exceptions may apply.

b. Trip charge after normal working hours

The trip charge applicable for work requested to be performed after normal working hours of the District will be \$200.00. Certain exceptions may apply.

4. Tampering

If any person tampers with a District meter or District side angle stop and damages it, the customer shall pay the District for the cost of repairs, including but not limited to: parts, labor, and equipment. In addition, the customer will be liable for any charges imposed under the District's Rules and Regulations.

5. Non-compliance charges for illegal connections

The District may impose charges in accordance with Section 14 of the District's Rules and Regulations.

Water Shortage Contingency Plan (WSCP) Rates:

The IRWD Board of Directors adopted an updated Water Shortage Contingency Plan (WSCP) in June 2021. The WSCP includes a “toolbox” of potential strategies for responding to each level of water shortage. The Board approved maximum water shortage water budget adjustments associated with levels of shortage at the October 26, 2021 Board meeting. Using WSCP as a guide and following Proposition 218’s requirements, rates were developed for each shortage level. These will be referred to as “WSCP rates” and have only been developed for the potable system commodity rates. They have no impact on the monthly fixed service water or sewer charges or on the recycled system.

The rates at each level are as follows.

<i>Tiers</i>	<i>WSCP Levels Commodity Rates</i>					
	1	2	3	4	5	6
	Up to 10%	11-20%	21-30%	31-40%	41-50%	Over 51%
Low Volume	\$1.76	\$1.76	\$1.77	\$1.78	\$1.79	\$1.82
Base	\$2.59	\$2.69	\$2.79	\$2.95	\$3.24	\$3.64
Inefficient	\$6.41	\$6.68	\$6.81	\$6.92	\$7.50	\$8.49
Wasteful	\$16.28	\$17.07	\$17.98	\$19.09	\$21.25	\$24.30

If the Board of Directors elect to implement any of these WSCP rates, the commodity rates are expected to provide cost of service equity for the budgeted Board-approved operating variable costs and additional costs incurred as a direct result of a water shortage declaration at the associated stage level. Implementation of WSCP rates would require additional Board action.

Section 2: Sewer System

Monthly Sewer Service Charge

1. Residential

(a) Single Family and Multi-family Dwelling Units	
<u>AVERAGE MONTHLY WATER USE^{1, 2, 3, 4}</u>	<u>SEWAGE SERVICE CHARGE PER MONTH</u>
Over 1000 cubic feet (> 10.0 ccf)	• 100% rate = \$ 33.24 per unit
501-1000 cubic feet (5.01-10.0 ccf)	• 90% rate = \$ 28.78 per unit
0-500 cubic feet (0.0-5.0 ccf)	• 75% rate = \$ 23.10 per unit
<p>(1) Monthly sewage service charge based upon the average of the actual lowest three months' water usage during the prior calendar year. Charges are based on a 30 day billing period.</p> <p>(2) Customers with less than a full calendar year of history are charged the 90% rate.</p> <p>(3) No credit will be granted for vacancies resulting from the normal turnover of occupants in an existing multiple dwelling unit. The price structure contained herein includes considerations of average vacancy rates.</p> <p>(4) A newly constructed multiple dwelling unit may be billed at the non-residential metered rate, with appropriate allowance for landscape irrigation, until the structure is released for occupancy.</p>	
<u>SEWAGE SERVICE CHARGE PER MONTH</u>	
(b) Collection Service Charge (assumes 10.0 ccf)	\$ 10.95 per unit
(c) Treatment Service Charge (assumes 10.0 ccf)	\$ 19.70 per unit

2. Non-Residential (Commercial, Industrial, and Institutional)

<p>Quantity charges are based on the assumption that 90% of non-residential water consumption returns to the sewer. Because of landscape irrigation or consumptive usage, some non-residential users may discharge substantially less of their metered water into the sewer system. Those users may, upon request to the District, be permitted to have the amount of water being discharged into the sewer determined by means acceptable to the District. Upon request by the user and at the sole discretion of the District, an alternate service charge may be applied.</p>				
<p>To qualify for the sewage service charge only, a customer usage history cannot be greater than 120 ccf in a full calendar year based on actual meter readings. Usage exceeding 10.0 ccf per month will pay a quantity charge. During construction, prior to occupancy, these rates are applicable.</p>	<u>SEWAGE SERVICE /QUANTITY/COMMODITY CHARGE PER MONTH</u>			
	<table> <tr> <td>Sewage service charge</td> <td style="text-align: right;">\$ 33.24</td> </tr> <tr> <td>Quantity charge beyond 10.0 ccf</td> <td style="text-align: right;">\$ 3.00 /ccf</td> </tr> </table>	Sewage service charge	\$ 33.24	Quantity charge beyond 10.0 ccf
Sewage service charge	\$ 33.24			
Quantity charge beyond 10.0 ccf	\$ 3.00 /ccf

This section shall be applicable to non-residential customers who discharge extra-strength sewage into the sewage collection system, or discharge or have the potential to discharge constituents subject to federal or state standards and local discharge limitations.

1. Alternative service charges

At the sole discretion of the District, users may request the application of an alternative service charge for use. The alternative service charge shall be based on measured quantity and quality of water being discharged to the sewer from the user's facility by a means acceptable to the District. The alternative service charge for use shall be computed by the following formula:

$$\text{Charge for use} = VR_v + BR_b + SR_s$$

Where V = Total volume of flow in hundred cubic feet.

B = Total discharge of biochemical oxygen demand (BOD) in pounds.

S = Total discharge of suspended solids (SS) in pounds

R_v = \$ 2.077 per hundred cubic feet

R_b = \$ 0.495 per pound of BOD

R_s = \$ 0.431 per pound of SS

2. Charges for noncompliance with permit conditions

a. Minor violation

Condition where the limitation is less than the violation and the violation is less than the technical review criterion.

Fee per violation - \$350

b. Significant noncompliance or significant violation

Condition where the violation is greater than the technical review criterion or qualifies under the definition of significant noncompliance.

Fee per violation - \$550

c. Batch dump or slug load

Fee per violation - \$550

d. Probation orders

Enforcement Compliance Schedule Agreements and subsequent two year probation, and Regulatory Compliance Schedule Agreements.

Fee per violation - \$550

e. Appeals to the Board of Directors

All terms and requirements for the Fats, Oils, and Grease (FOG) Control Program can be found in Section 7.13 of the District’s Rules and Regulations for Water, Sewer, Recycled Water, and Natural Treatment System Service.

a. FOG wastewater discharge permit fees (pursuant to Rules and Regs 7.13.6(4)) Food service establishments (FSE), and those FSE that are issued a conditional waiver (CW) by the District, shall pay the following FOG wastewater discharge permit fees which do not exceed the amount determined in Table 2-29 of the 2018 Fats, Oils, & Grease Fees Study:

FSE Monthly Permit Fee:	\$16.40 per month
CW Monthly Permit Fee:	\$ 7.25 per month

b. These charges shall be incorporated in the monthly sewage service charges.

c. Special services/fees

1) FOG plan check fees

The following FOG plan check fees must be paid at the time FOG plans are submitted.

Food Service Establishments (FSE) and Conditional Waivers (CW)

Initial Plan Check	\$575.00
<u>Permit Issuance and Initial Inspection</u>	<u>275.00</u>
Total =	\$850.00

Limited Food Prep (LFP)

- 1) Calculate new development connection fees based on new development land use type (and estimated water usage for high volume users, if applicable) utilizing current rates and charges; and
- 2) Calculate existing development connection fee credit based on existing land use type (and existing water usage for high volume users, if applicable) utilizing current rates and charges; and
- 3) The redevelopment connection fee is the difference between the new development connection fee and the connection fee credit. No refunds will be given if the credit is greater than the connection fee.

4. Quote Request for Meter/Service Modifications by District – Residential Only

Customers may request the District to provide a quote for the following services:

- 1) Install, relocate, and abandon domestic and recycled water meters/service line up to 2-inch in size for residential projects only;
- 2) Replace (downsize or upsize) domestic and recycled water meters/service line up to 2-inch in size for residential projects only.

To request an action listed above, the customer must submit a Quote Request for Service or Meter Modifications which can be obtained by contacting Development Services via email at plancheck@IRWD.com. District staff will prepare a cost estimate to include the individual meter as shown in Subsection 3, additional parts required for project and labor required for installation. A connection fee will apply for any previously undeveloped parcel. When payment is received, a work order will be issued to District staff to begin coordination and installation. Easements will be required for any facilities located outside of the public right of way.

Additional Requirements:

- a. It is the customer’s responsibility to ensure that any upsizing or downsizing of the meter will not have adverse effects to the customer’s system as it relates to water pressure, fire protection or ability to successfully serve the demand of the home or business. The District may require OCFA approval of any modifications and/or a signed Request & Authorization to Change Meter Size form.
- b. Any private-side (downstream of the water meter) modifications or repairs are the sole responsibility of the customer.

- d. District Meter Quotes are valid for 30 days.

The District reserves the right to decline a customer’s request for meter/service modifications for any reason. In the event the District declines to perform modifications, the requester is required to follow the formal plan approval process by submitting design plans to Development Services. The District will not provide quotes for non-residential customers. For further information, see Development Services Procedural Guidelines document which can be found at <https://www.irwd.com/doing-business/engineering>.
